

## Information to Regions

Please take note of the following information which is important for participation in the NamPower National Science Fair:

- Each region may only enter a maximum of 20 projects in the National Science Fair (10 Primary School projects and 10 Secondary School projects);
- the projects must only be the projects of the gold medal winners at the Regional Science Fair;
- Only a maximum of two learners per project is allowed for Primary School projects and only one learner per project for the Secondary School projects;
- Accommodation details will be send to the regions after submission of their participation has been made;
- A maximum number of 9 teachers and 1 driver that will accompany learners are allowed per region. Any additional teachers will be responsible for their own accommodation and meals;
- All regions are responsible for their own transport and any costs related to it;
- All entries must have the correct name(s), surname(s), project name and category for each learner or team. The organizing committee will not be held responsible for names or projects incorrectly submitted;
- Each region must fax or e-mail a report on their Regional Science Fair to the National Commission on Research, Science and Technology by 12 August 2016;
- All learners must wear their school uniforms during the prize giving ceremony;
- An Abstract form should be filled in for each project and submitted on or before 05 August 2016. (see attached form);
- Each learner must bring along their own extension cord(s) for their project if the project uses electricity; and
- No entries or changes will be allowed after 12 August 2016.
